Ranpak®

FillPak Go™
Small box, big benefits, optimal product protection

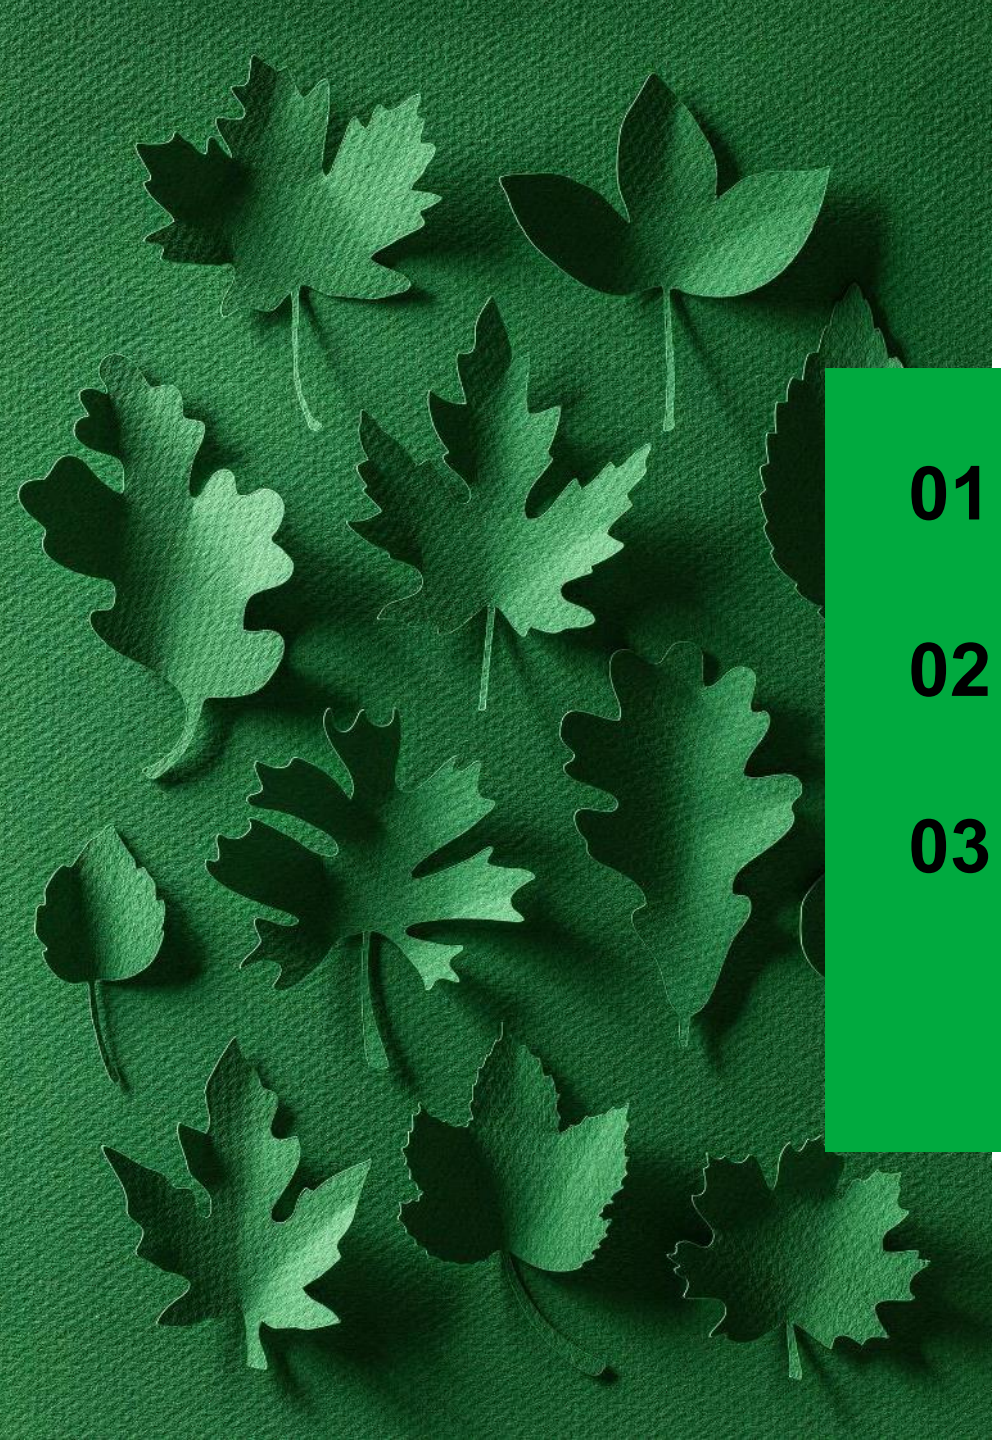

Simple and highly efficient packaging, for start-up companies or for low-volume Void Fill users, with easy integration into any packing environment.

Our purpose

We bring supply chains in balance with the environment and deliver protective packaging solutions that are good for the world, and good for the bottom line.

Glue strip on the bottom to secure the box

Ranpak | Deliver a Better World

Greenline® paper

- FSC®-certified
- Post-consumer recycled
- Perforated fanfolded, 360m and 70gsm
- Star-shaped paper once pulled out of the box (Paperstar™)
- Smooth surface

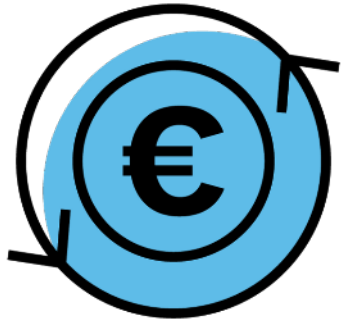

Ranpak | Deliver a Better World™

Key features

Cost efficient

Get started straight out of the box, using less material and with reduced storage costs. Paper is available whenever you need it, on-demand.

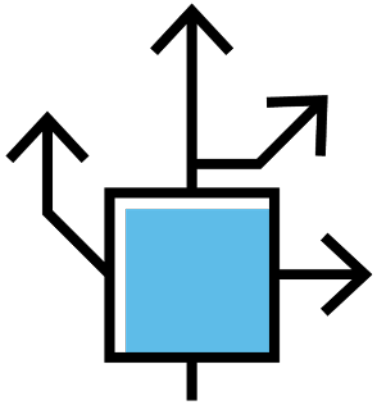

Ranpak | Deliver a Better World™

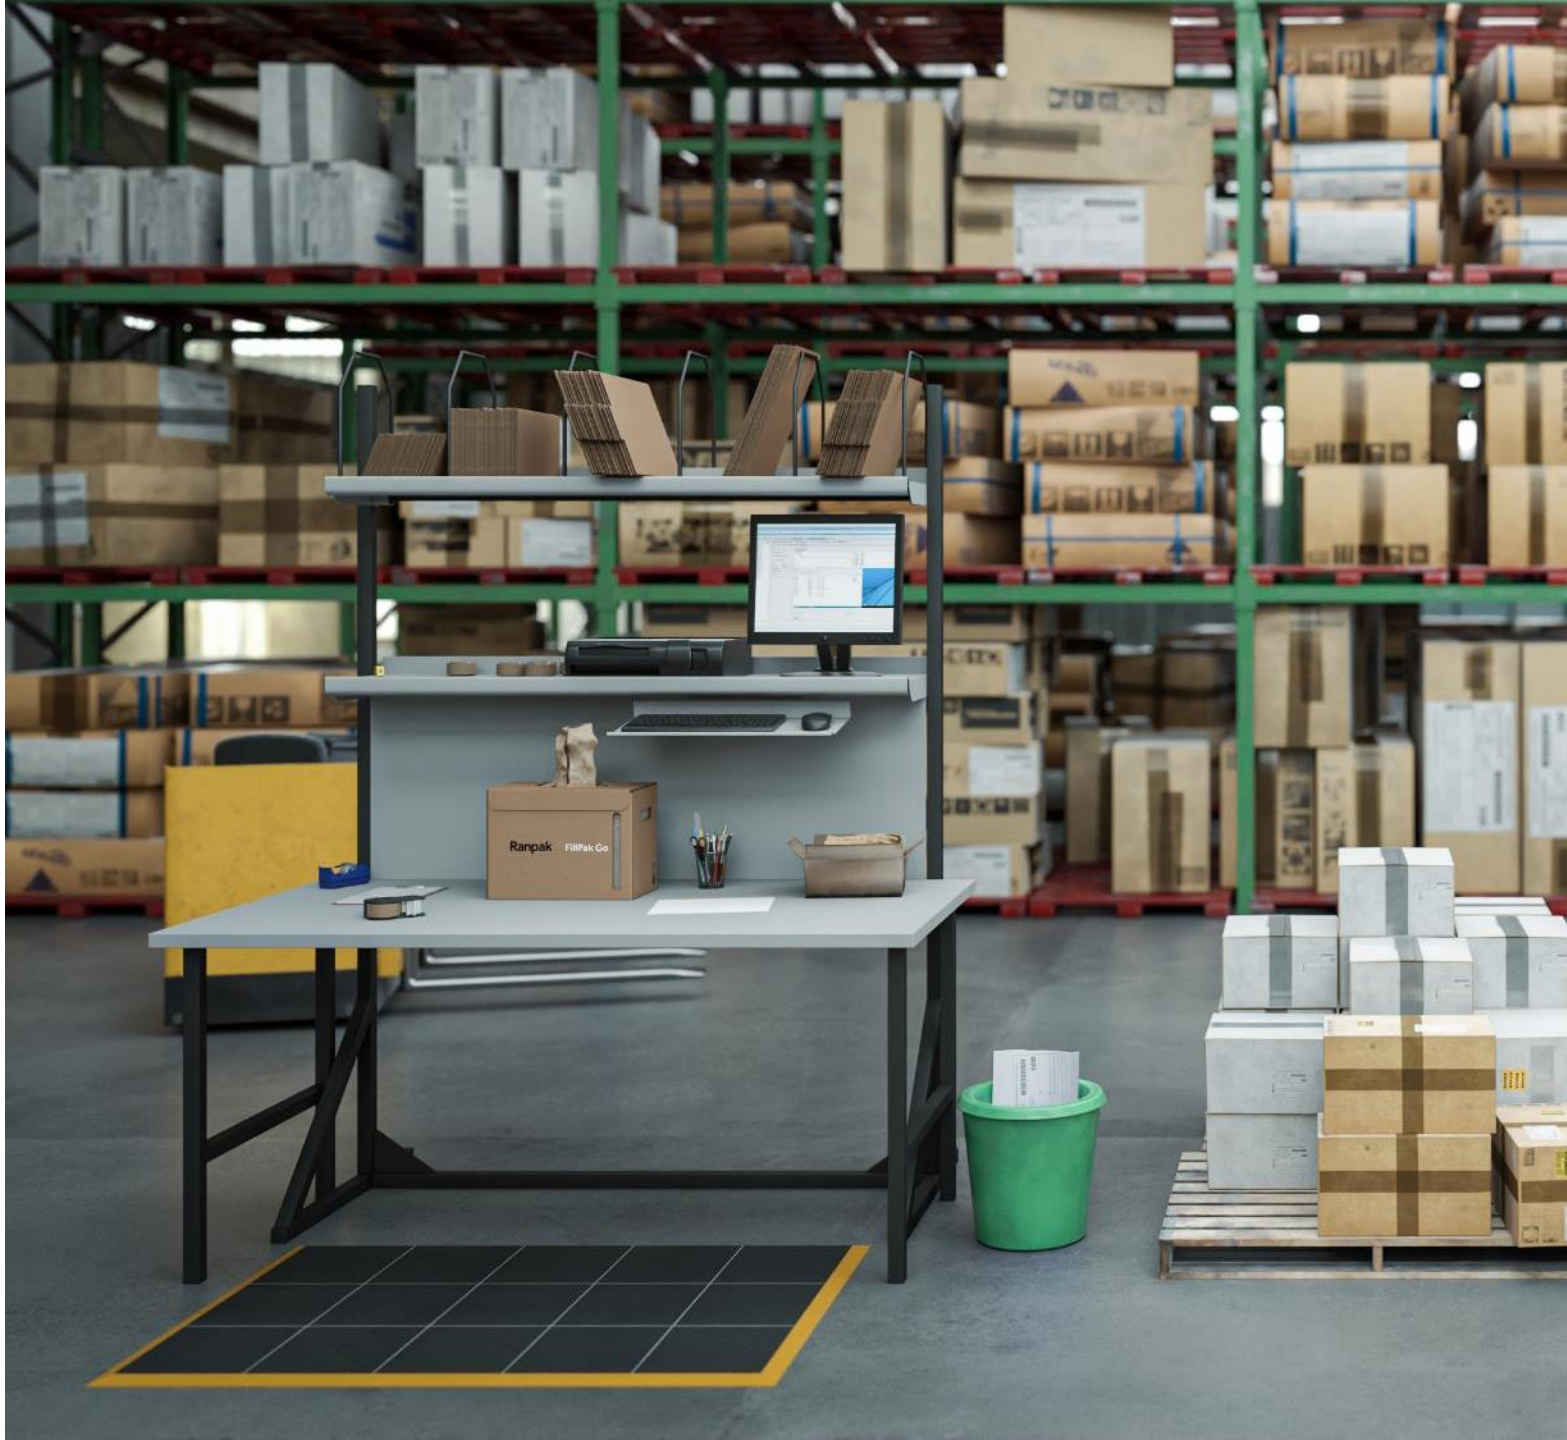

Flexible

Compact size and low weight allow FillPak Go to go almost anywhere. The electricity-free solution integrates easily into any packing environment, and Greenline® paper suits all of your Void Fill configurations.

Ranpak® | Deliver a Better World™

Simple

Installation is almost instant, with no training necessary. FillPak Go eliminates labor-intensive paper crumpling by hand. This is a genuine ‘tear and go’ solution.

Ranpak | Deliver a Better World™

Protective

A star-shaped paper pad (Paperstar) pulled straight out of the box ensures superior protection. The pad holds its shape, does not break or deflate, and provides good shock absorption.

Ranpak® | Deliver a Better World™
